RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents:

In response to the Restriction Requirement dated May 8, 2002, applicants hereby elect Group II, claims 12-18, 22 and 53-57, drawn to polypeptides for examination at this time. At page 5, last paragraph of the Restriction Requirement, Paper No. 12, election of a single invention of polypeptide (specifically, molecules (a)-(h) of claim 12) was required. Applicants submit that as the polypeptides recited in these claims are whole or partial contiguous amino acid sequences of SEQ ID NO:4, a search of all of (a)-(h) would not be an undue burden, and respectfully request that the Examiner reconsider this requirement. If, upon reconsideration, the requirement is maintained, applicants elect invention (a) of the relevant claims.

Consideration of the elected claims is now requested.

Respectfully submitted,

Jane E.R. Potter
